Research enablement is pivotal in advancing medical knowledge and improving patient outcomes. By providing researchers with access to robust data analytics tools, interoperable data sources, and secure data management systems, healthcare organizations empower them to explore and analyze vast datasets effectively. This enables researchers to gain valuable insights, identify patterns, and make evidence-based decisions that drive medical discoveries, personalized treatments, and innovations.

Expand your organization's capacity and create a holistic environment that enables quality, scalability, value-based care, and more. Developed by clinicians and data science experts, 1Clearsense is designed to meet the evolving needs of healthcare organizations, providing a seamless platform for exploring, tracking, sharing, collaborating, visualizing, and exporting data effortlessly—all with code-free, state-of-the-art data analysis. Healthcare institutions can foster a culture of continuous learning and drive progress toward more effective and patient-centric healthcare solutions.

How Clearsense Helps

✓ Efficiently scale projects within a secure environment, seamlessly tracking and analyzing insights and patterns.

✓ Enable clinical trials with an efficient data-driven approach.

✓ Accelerate research by rapidly creating, exploring, and discovering cohorts of any level of complexity in real time.

✓ Leverage purpose-designed reporting applications to assess and improve performance, utilization of services, and costs.

✓ Prevent and lower patients' risk by using clinical data and analytics to transform observed care trends and evidence-based practices into population care standards.

Benefits

✓ Enable seamless exploration, preparation, and visualization of your healthcare data.

✓ Provide secure, role-based access control across your organization with roles tailored to your organization's policies.

✓ Intuitive to use and does not require IT, coding, or technical skills.

✓ Turn complex databases into logical datasets and coded values into human-readable terminology.

✓ Extract deeper insights and dig into the specific reasons behind metrics instantly and easily.

✓ Fully audited cohort, report lineage, and timeline with easy-to-access cohort and report definitions.

The Clearsense Approach

1Clearsense, an all-in-one healthcare data platform, aggregates data from various sources and is powered by the Clearsense Healthcare Data Model. This model offers pre-built integrations and accelerators to rapidly implement connections, mapping, and data quality rules, ensuring data lineage and traceability. With payer and provider data residing within the common healthcare data model, organizations can determine the source of truth and assign trust rules. Collaborating with organizations, Clearsense establishes granular data access policies and assigns security controls. Accessible data can be seamlessly utilized in 1Clearsense analytics, outgoing integrations, and customized applications through 1Clearsense's bring-your-own-tool (BYOT) capabilities.

Get To Know Us

Committed to leading transformation in healthcare, Clearsense® creates a data journey, all the way from number to key insight. Cloud-based, AI-enabled, and HITRUST-certified, the platform of data solutions ensure data governance, implementation, and analytics are rapidly mainstreamed while remaining scalable and secure. Driving faster outcomes in clinical, financial, and operational environments, Clearsense is powering the innovation of tomorrow—right now.

The Clearsense Promise

Our Mission
Our mission is to unlock the full potential of healthcare data by delivering flexible solutions that empower data confidence and enable data-driven decision-making to achieve better outcomes.

Our Vision
We have created a holistic data environment with processes to cleanse, normalize, harmonize, and integrate better data with tools to make it more manageable, accessible, and valuable. We are unlocking the potential of data from patient care decisions, business operations, financial routines, and research.

Why Choose Clearsense?

One Platform, One Partner
One partner with an advanced end-to-end platform that empowers executives, business owners, clinicians, IT, and data scientists.

Data First Approach
Eliminates assumptions and replaces them with a single source of trusted data. Put trusted data into action without barriers or fear.

Healthcare Focused
We are 100% focused on the healthcare industry, which means we understand your data challenges and opportunities.

Security
Multi-cloud, HITRUST certified, HIPAA and SOC 2 compliant with SSO Integration. Role-based security controls at the application and data levels. We treat security with the highest level of importance.

Data Quality & Trustworthiness
Data governance advisory services wrapped around AI technologies and processes ensure the highest level of data trustworthiness.
