

ARCHIVE + ACCESS

Are You Ready To Do More With Your Data?

Elevate your legacy data for better decisions with ingested and mapped data using ClearSense's Archive + Access solution. From historical legal and medical records to operational reports, Archive + Access rapidly ingests data from any source bringing it all together in a unified record. The user-friendly interface makes it easy for your team to view, search, and analyze legacy data from any archived system. ClearSense offers healthcare systems the unique power to keep raw data compliant, accessible, searchable, and valuable for future insights – it's the smartest way to do more than storing your legacy data.

When your team needs to find answers from historical medical records and operational data, ClearSense's Archive + Access solution simplifies:

- Helps your team prepare legal medical records and aggregate data across any archived legacy system
- Delivers a flexible, unified report viewer for images, tabular reports, and dashboard visualizations
- Accelerates applications for many common EHRs, ERPs, and ancillary systems
- Offers intuitive, elastic search capabilities to support faster results
- Provides a direct integration with live applications through EMPI and patient contextual links

100%

of our clients save hardware and software costs through retiring older systems while keeping access to valuable data.

Built for the future of healthcare

With the ClearSense Archive + Access solution, your entire company will have more complete knowledge and insights to improve across clinical, financial, operational, and marketing initiatives—all while saving money. From consolidating and reducing legacy application maintenance costs to viewing historical reports and exploring data science, Archive + Access is the smartest way to do more than storing your legacy data.

Rapid Ingestion: Realize faster ROI with rapid data ingestion and quicker system decommissioning.

Customized Views: Leverage customized views, quick filters, and keyword search capabilities to find the exact data element(s) you are looking for.

Single Source of Truth: Consolidate legacy data into a single, intuitive platform that serves as a holistic source of truth.

Scale: Do more with your legacy data by enabling analytic discoveries as your data maturity evolves

Data Security: Meet legal data storage requirements with granular, AD-based, access permissions and restrictions.

Learn how a large, nationally recognized not-for-profit health integrated delivery network decommissioned 200+ systems for annual cost savings of \$23M

GET TO KNOW US

Committed to leading transformation in healthcare, ClearSense® creates a data journey, all the way from number to key insight. Cloud-based, AI-enabled, and HITRUST-certified, the platform of data solutions ensure data governance, implementation, and analytics are rapidly mainstreamed while remaining scalable and secure. Driving faster outcomes in clinical, financial, and operational environments, ClearSense is powering the innovation of tomorrow—right now. Learn more at ClearSense.com.

THE CLEARSENSE PROMISE

OUR MISSION

Our mission is to unlock the full potential of healthcare data by delivering flexible solutions that empower data confidence and enable data-driven decision-making to achieve better outcomes.

OUR VISION

We have created a holistic data environment with processes to cleanse, normalize, harmonize, and integrate better data with tools to make it more manageable, accessible, and valuable. We are unlocking the potential of data from patient care decisions, business operations, financial routines, and research.

WHY CHOOSE CLEARSENSE?

One Platform, One Partner

One partner with an advanced end-to-end platform that empowers executives, business owners, clinicians, IT, and data scientists.

Data First Approach

Eliminates assumptions and replaces them with a single source of trusted data. Put trusted data into action without barriers or fear.

Healthcare Focused

We are 100% focused on the healthcare industry, which means we understand your data challenges and opportunities.

Security

Multi-cloud, HITRUST certified, HIPAA and SOC 2 compliant with SSO Integration. Role-based security controls at the application and data levels. We treat security with the highest level of importance.

Data Quality & Trustworthiness

Data governance advisory services wrapped around AI technologies and processes ensure the highest level of data trustworthiness.

Your Data. **Protected.**
